**WHAT TEENS HAVE TO SAY ABOUT
MUSIC RESOURCE CENTER - CINCINNATI'S
"INTRODUCTION TO DIGITAL RECORDING"**

This program let us venture into the world of music
Jared – 12th grade

I like to put my own beats together and this is a great thing they're doing and I think everyone should enjoy doing something like this. *Levert - 10th grade*

...you get to rap about yourself and it gives us a chance to express ourselves and give us something to do instead of being on the streets and stuff. When we're here we have something to do, we got our minds focused on something that we can do in the future. *Chafonte - 7th*

I like the program. I finally found out what I want to do with music. *Jenny*

Before I came to this class I didn't really know anything about sampling music. But, now I know what all it takes for you to clench your beat together and all of that. *David*

...this being here opened me up to a whole lot of music I wouldn't normally listen to...I can improve myself, and better myself through this type of activity... *Jonathan*

... we have nothing to do instead of running through the streets or being at home all day. This is a good opportunity for us so that we can listen to music, make music, be a part of music. I love music, I grew up around music. So, this is just a good opportunity for me and I just want to thank you all for that. Thank you. *Sedan – 9th grade*

I've enjoyed having the Music Resource Center come to my school. I've learned an immense amount about producing, making beats, the whole music industry and I feel that this is a welcomed resource that Cincinnati really needs. Our children need this, and the city needs this. *Mr. Beasley – Withrow University High School Music Teacher*
